Section B

Candidates must attempt Question 1 and one other question –

PLEASE NOTE - Question No. 1 is compulsory

(Please use a separate page for each answer. You may also use the back of each page).

Compulsory 50 Mark Question

Q1. American Manufacturing Company (AMC) are an international trading company with storage facilities in both Dublin Port and in Stratford, London. They have a well-developed supply chain system and to meet their JIT requirements they need material to be transported daily on the night ferry from Dublin to London, and likewise in reverse, nightly between London and Dublin. AMC have advised that loading and unloading will take less than 10 minutes at their facilities as they have forklifts in place to load the trailer from both sides. Ideally the trailer should offer some weather protection. Material classified as dangerous goods will be packed and labelled accordingly.

Your company DT Transport, with bases in Dublin and London, have been asked to tender for the work. You are the transport manager of DT Transport and you have been asked to bring forward operating proposals for the services.

The nightly service from Dublin will depart AMC facilities in Dublin 20:00 to board the Dublin Holyhead ferry at 20:15. On arrival the vehicle will leave Holyhead at 01:00 and arrive in AMC facilities by 07:30. The nightly departure from London will leave London at 18:30 to board the ferry in Holyhead at 00:30, arriving in AMC facilities before 06:30.

You have already ascertained that Holyhead to London is 300km, which is a driving time of 5 hours, allowing for traffic in London. Journey time must also take account of a driver's break. You are also allowing one hour at both the start and end of each journey, in Dublin and London, to cover for the driver to sign on, for the vehicle to travel to AMC's facilities and to load for departure, and on arrival at AMC facilities, to unload and travel to DT Transport depots for the vehicle to park and for the driver to sign off.

Draft a short report to your CEO covering the following points:

a. Documentation, authorisations, licences, etc. required to operate the service.

(10 Marks)

b. Draft timetable (Departure and arrival times) for the services during the day and from this outline drivers' duties and schedule for a day.

(10 Marks)

c. How many drivers and vehicles are required to operate the service and explain why?

(10 Marks)

Please Turn Over

d. Outline how the proposed drivers' schedules are in accordance with Driving hour regulations.

(10 Marks)

e. The type of vehicle to be used and its facilities, given the nature of the work involved. Explain the fuelling and cleaning arrangements to be put in place.

(10 Marks) (Total 50 Marks)

Please attempt One, and only one of the following questions. Marks will not be allotted to more than one answer.

Q2. ECMT licences are multilateral licences for the international carriage of goods by road for hire or reward by transport undertakings established in an ECMT Member country, based on a quota system. Please outline the basis, use, conditions and operation of ECMT Licences.

(50 Marks)

Q3. Regulation 14 of Statutory Instrument No. 265 of 2018 European Union (Occupation of Road Transport Operator) Regulations 2018, which gives effect to Regulation (EC) 1071 of 2009 requires transport operators to hold a list documents at their business address. Please list 10 of the documents that must be kept at transport operator's business address.
